

AMENDMENTS TO THE ABSTRACT

Please amend the Abstract of the Disclosure as indicated below:

Abstract of the Disclosure

The present invention provides ~~a reaction product of reactants comprising:~~
a) ~~a polyisocyanate;~~
b) ~~a hydroxyalkyl carbamate;~~
c) ~~an aldehyde; and~~
d) ~~at least one monohydric alcohol.~~

~~— Additionally provided is a composition of matter comprising~~having the structure:

where Q is a multi-valent organic moiety containing ~~urethane linkages~~isocyanurate functionality; X is H, -CH₂OH, or -CH₂OR'; R' is an alkyl or aryl group having from 1 to 12 carbon atoms; and y is at least 2. Also provided is a curable composition containing the composition of matter.~~The reaction product described above may have the structure (i).~~

~~The reaction product and composition of matter are suitable for use as crosslinking agents in a variety of curable compositions further comprising at least one polymer having functional groups that are reactive with the crosslinking agent. Such curable compositions may be used as film forming compositions.~~
